Reference No.:- SJPNL-BWS/Sainj/Water Sample/2020-386-87, Dated 25 11 2020

Dear Sir,

Water samples from Sainj sent by you have been tested for Hep-A & Hep-E viral RNA. The results are as follows.

Sr. No.	Water Samples Received Details	HAV RNA	HEV RNA	TOTAL AMOUNT
1	SJPNL/Bekhalti A01	NEGATIVE	NEGATIVE	5000/-
				TOTAL = 5000/-

Detection of HAV & HEV RNA in water means contamination of the water with Hepatitis E virus. And Hepatitis A virus.

Yours sincerely,

For
Dr. Kavita Lole
